ABOUT STATE FARM STADIUM

State Farm Stadium is a prime example of sophisticated engineering, technology, and design. Regarded as one of the finest venues in sports, it features both a retractable roof and retractable natural grass playing field, setting an industry standard for design excellence and providing the ultimate in fan comfort. The field allows flexibility to transform State Farm Stadium from a football-ready field to an unrestricted stadium floor in just over an hour at the push of a button.

Opened in 2006, the stadium was designed to host Super Bowls, blockbuster concerts, NCAA tournaments, and numerous other entertainment events and activities. The world-class venue attracts sellout crowds for the franchise while also serving as the site of three of the most-watched Super Bowls in history - Super Bowl XLII between the New York Giants and the New England Patriots, Super Bowl XLIX between the Patriots and Seattle Seahawks and Super Bowl LVII between the Kansas City Chiefs and Philadelphia Eagles. In 2019, the stadium experienced its largest crowd to date when 77,653 fans attended the Garth Brooks concert and in 2023 the venue served as the kickoff for Taylor Swift's wildly successful Eras Tour. State Farm Stadium also plays host to the annual Fiesta Bowl and has hosted the BCS National Championship game twice.

On February 12, 2023 State Farm Stadium hosted its third Super Bowl when a record 115.1 million viewers watched the Kansas City Chiefs defeat the Philadelphia Eagles 38-35 in Super Bowl LVII. The thrilling contest was decided by a Chiefs field goal with just eight seconds remaining in regulation.

In July of 2018, the NCAA announced that the 2024 Men's Final Four will be held at State Farm Stadium.

RENOVATING THE NEST: In the years prior to the venue hosting Super Bowl LVII at the conclusion of the 2022 season, over \$150 million in renovations occurred in and around State Farm Stadium.

"We want to make sure the building constantly feels fresh," team owner Michael Bidwill said of the fan experience. "This is what the game is about. It's about the fans." Among the upgrades at State Farm Stadium:

Stadium Club Area Renovation (\$28 million): In 2017, the Cardinals revealed the first part of a two-phase expansion and renovation of the Club areas on the east and west sides of the stadium.

In addition to enhancing and expanding the pre-existing areas, the project included the creation of "Flight Lounge" which provides an intimate bar setting and features different brands of wine each week. Another major addition was the high-end "Bubble Lounge," a full-service bar that specializes in champagne and wine and features a ticketed pregame brunch experience through kickoff and an upscale a la carte menu beginning with the second quarter.

That phase also included the renovation of the bar areas on the Club level, going from six beer taps to 16. The primary 50-Yard lounges now include large (12' x 60') videoboards to easily permit viewing of eight games at one time.

Completed in 2018, phase two entailed completely renovating the balance of the Club level. A highlight of phase two was "The Tail Feather," a new speakeasy style lounge and full-service bar that offers fans an electric, Art Deco atmosphere. Located on the northeast side of the stadium, "The Tail Feather rivals the "Bubble Lounge" on the west side.

The phase two renovation also included new bars and food service areas in all four corners, new flooring and lighting, additional TVs, a new sound system and all new furniture.

A specialty lounge area, the "Bird's Nest," also has a new bar and food buffet, extensive millwork finishes and new furniture. Finally, all restrooms were completely renovated with new flooring, ceilings, lighting, wall tile, and a stone vanity.

New Parking Lot, Pedestrian Tunnel & Bridge, Security Structures (\$28 million): The "Black Lot" which features 4,015 additional parking spaces, opened prior to the 2018 season. Located between 95th and 91st avenues along Cardinals Way, the lot has access to the stadium grounds via a pedestrian underpass and a pedestrian bridge.

The tailgating areas were also upgraded and permanent shaded structures were built for security checkpoints.

Stadium Loft Renovations (\$17 million): In 2021, the Cardinals completed a two-year renovation of all 88 private lofts at State Farm Stadium. The improvements include enhanced cabinetry, flooring, furniture, appliances and finishes that complement the recently renovated Club spaces. The Loft level concourse was also improved with new flooring, restroom renovations, redesigned loft entryways and the addition of Arizona themed artwork sourced by local area artists.

ARCHITECTURE: World-renowned architect Peter Eisenman, in partnership with HOK Sport and Hunt Construction Group, created a state-of-the-art design that has already become a distinctive Arizona landmark. The stadium's exterior skin takes its design cue from the barrel cactus and features alternating sections of shimmering metal panels intended to reflect the shifting desert light alongside 21 magnificent vertical glass slots allowing fans a spectacular view of the horizon from any level of the interior.

RETRACTABLE FIELD: State Farm Stadium also features a unique rollout natural grass playing field, contained in a single tray weighing 18.9 million pounds (234 feet wide, 403 feet long). The first completely retractable field in the United States, it is positioned inside the stadium on game days to offer the preferred natural-grass playing surface for football and outside the stadium for the remaining days of the year to receive sunlight and watering. The field tray is powered by electric motors mounted on steel wheels riding on tracks embedded in the concrete floor and takes approximately 70 minutes to move completely. The flexibility of this unique design allows State Farm Stadium to serve as a true multipurpose venue featuring a 164,000 square-foot event floor for other events.

RETRACTABLE ROOF: Atop the stadium roof are two large retractable panels that open and close on an arc. The panels and much of the roof are made of a translucent fabric called Birdair that enables light to penetrate and gives the venue an open, airy feel. When closed it also allows for an air-conditioned environment during the hot months, but the roof can be opened during cooler times of the year to take advantage of Arizona's patented sunshine. The roof takes about 12 minutes to open or close.

INFORMATION TECHNOLOGY: All telecommunications services at State Farm Stadium for Internet, WiFi, voice, data, and video broadcast distribution are provided by COX Business Services and are provided via redundant pathways to the Stadium. In addition, the Stadium WiFi System is 'Powered by COX'. State Farm Stadium has an IP infrastructure that supports telecommunications throughout the Stadium. All voice and data communication network infrastructure is built entirely on Cisco equipment.

In 2022 the Stadium Technology Systems were completely upgraded in order to host the 2023 NFL Super Bowl game. The 'Stadium WiFi System - Powered by COX' was completely upgraded. The infrastructure and security systems equipment running the entire building and the WiFi equipment on it was upgraded

with 1,500 new Cisco APs, and antennas were installed in new and existing locations throughout the stadium.

In addition, the Stadium DAS system was upgraded using Crown Castle as the neutral host of the system. The upgrade added Verizon 5G service both inside and in the parking lots, as well as T-Mobile 5G and AT&T 5G. These upgrades provide better coverage and capacity for fans using Verizon, AT&T, T-Mobile/Sprint in all areas of the stadium, including coverage for the event floor and events taking place there.

The Stadium provides up to 100Gb of Internet bandwidth, which can be adjusted as needed to support any technology requests that come to the stadium, and additional bandwidth can be requested from COX in advance as needed. The stadium network also supports a redundant telephone system supported on a SIP backbone.

MULTI-PURPOSE: Because of the truly unique multi-purpose nature of the facility, State Farm Stadium is able to host far more than just Cardinals home games. Since opening in August of 2006, the building has hosted three Super Bowls, the 2015 Pro Bowl, the first-ever BCS National Championship game (Florida-Ohio State), Fiesta Bowls, international soccer matches, high school football championships, high school proms, monster truck and motocross events, trade shows and conventions, the West Regionals of the NCAA men's basketball tournament, and numerous other events.

In December of 2016, State Farm Stadium hosted its 11th Fiesta Bowl and for the first time ever the game served as one of two College Football Playoff Semi-Final contests. Ohio State and Clemson met on New Year's Eve for a chance to play in the BCS National Championship Game. In December of 2019, State Farm Stadium again served as the site of a BCS semi-final as the Buckeyes and Tigers held a Fiesta Bowl rematch.

State Farm Stadium hosted Arizona's largest international soccer match in history as Haiti and Mexico took the pitch for the 2019 Concacaf Gold Cup Semifinal.

During the COVID-19 outbreak, State Farm Stadium served a number of important functions as the site of numerous blood drives, PPE (Personal Protective Equipment) drives, testing drives and as one of the nation's first, and most successful, vaccination sites. Early in the pandemic, one area hit particularly hard by the COVID-19 crisis was the local blood donation community, where the supply reached critically low levels. The stadium's size and the event's operational set-up ensured adherence to the necessary physical and social distancing guidelines while still accommodating the greatest possible number of donors. In April of 2020, the Cardinals and Project C.U.R.E hosted a PPE drive at State Farm Stadium to help meet the pressing need within the local healthcare community. On two separate occasions in May, the Cardinals and Dignity Health participated in the state's drive-through COVID-19 testing blitz in Orange Lot at State Farm Stadium.

In 2021, State Farm Stadium was also host to one of the first, and most successful, vaccination sites

in the nation. Between January and April, more than 800,000 COVID-19 vaccines were administered at State Farm Stadium, which accounted for nearly 20% of the total doses administered in Arizona during that period. The site was so successful that President Joe Biden and Vice President Kamala Harris participated in a virtual tour on February 8 and the administration called the operation "an incredible model." Biden told Arizona Department of Health Services Director Dr. Cara Christ during the tour; "I got a call during the Super Bowl from the commissioner of football (Roger Goodell) offering us, the federal government, the 30 major stadiums. They're going to be coming to you to look at how you did it because you're doing such a great job."

In a given year, ASM Global (the building's operator) successfully books 225+ event days for gatherings large, small and in between. Among those events have been concerts featuring some of the world's most popular artists, including The Rolling Stones, U2, Garth Brooks, Guns N' Roses and Metallica.

OTHER FEATURES: In addition to its high-design architecture and innovative design, the stadium also sets new standards for stadium comfort. Its layout provides for excellent site lines, comfortable seats, abundant restrooms and concession stands, spacious end-zone viewing decks, and wide concourses with an open design allowing for an unobstructed view of the field from both the lower and upper concourses. It is also aligned along a slight northwest to southeast axis to offer the maximum sun exposure for the grass field and maximum shade for stadium patrons. State Farm Stadium includes 88 luxury lofts - know elsewhere as "suites" - that are unlike any others in the sports industry. Featuring a bold, modern interior design, loft amenities include preferred parking, an exclusive entrance, private restrooms, multiple televisions, and in-loft catering. In addition to the lofts, a luxurious Club Level features wider seats, preferred parking, private entrances, and a climate-controlled Club Lounge with multiple two-story spaces, comfortable lounge seating, plentiful TV monitors, upgraded food and beverage offerings and dedicated restrooms. State Farm Stadium is owned by the Arizona Sports and Tourism Authority.

HERITAGE AT SPORTSMAN'S PARK

"Heritage at Sportsman's Park" opened during the 2021 football season and was a \$12M project as part of the \$150M in renovations that took place between SB49 and SB57 and part of continued investment to make State Farm Stadium the most fan-friendly environment in the nation.

On game days, fans can purchase tickets for the "Cardinals Tailgate Party at Heritage Pavilion" and the venue is able to host additional events at Great Lawn on non-gamedays.

PAT TILLMAN MEMORIAL

The plaza surrounding State Farm Stadium is known as the Pat Tillman Freedom Plaza, in honor of the former Cardinals safety who was killed in action on April 22, 2004 while serving his country as a member of the elite Army Ranger unit.

Fans attending home games can visit the Pat Tillman Memorial located at the northwest side of the plaza. The memorial includes a large bronze sculpture of Tillman on the eastern side and a circular reflection pond on its western side.

The sculpture is approximately eight-feet tall, weighs over 500 pounds, and took nearly nine months to complete. After an extensive search, the Cardinals selected artists Omri Amrany and Gary Tillery to create the sculpture. The sculptors

consulted with the team and Pat's wife, Marie, who worked to select the image of Tillman that would best convey his character and spirit. Serving as a backdrop to the sculpture is a nine-foot tall curved wall made of concrete that measures 42 feet across, symbolic of Tillman's jersey number at Arizona State.

The brimming pool of water on the western side consists of a large 60-foot circular pond made of black concrete and stainless steel. Intended to create a pool of tranquility, it has a surface area of 2,300 square feet.

To the west of the memorial is a grove of 40 Oak trees that symbolizes the jersey number Tillman wore as an Arizona Cardinal and the entire area is surrounded by a grove of Ash and Oak trees.

CARDINALS PRESERVE PAT TILLMAN'S LOCKER AT TEMPE FACILITY

On September 11, 2015, the 14th anniversary of the 9/11 terrorist attacks, the Cardinals unveiled the locker of former safety Pat Tillman at the team's Tempe Training Facility.

A new locker room was built as part of a two-year, \$15 million renovation of the facility, but Tillman's locker was preserved to display in a glass enclosure between the weight room and cafeteria. Included in the locker are Tillman's jersey, helmet, shoulder pads and draft card, along with a description of his life and career.

"We've decided to preserve Pat Tillman's locker, and tell his story," team owner Michael Bidwill said at the unveiling ceremony. "Many of our future players, and even current players, may not know the stories of the Cardinals. But we wanted to tell the stories and talk about the history, the history of our organization and the history of Pat Tillman."

After a decorated career at Arizona State University, Tillman was selected in the seventh round (226th overall) of the 1998 NFL Draft by the Cardinals and he played for Arizona from 1998-2001 before enlisting in the U.S. Army in 2002. He was killed in action in Afghanistan on April 22, 2004.

Tillman's No. 40 is retired by the Cardinals and he is a member of the team's Ring of Honor.

TEAM SHOWS

There will be three Cardinals TV programs available throughout the 2023 season and into next year: "Cardinals In Focus," "Cardinals Game Plan with Head Coach Jonathan Gannon," and "Cardinals Locker Room." The programs can be found on NBC 12 News (KPNX-TV), and FOX 11 (KMSB-TV) in Tucson.

"Cardinals In Focus" is a weekly half-hour program dedicated to providing a close-up view of the team, on and off the field. Each week, Emmy-award winning segments such as the popular "Wired" tell

the story of the season and shed light on the personalities within the team. The show is hosted by Paul Calvisi and Dani Sureck (NBC 12 News, Saturday 6:30 PM)

"Cardinals Game Plan with Head Coach Jonathan Gannon" allows viewers to see and hear the inside story straight from the man in charge. Co-hosted by Calvisi and Ron Wolfley, the show will feature an in-depth look at key plays from the previous week's game with an eye on the upcoming opponent and the Cardinals plan for victory (NBC 12 News, Friday 6:30 PM)

"Cardinals Locker Room" will air immediately following Sunday Night Football on NBC and will provide all of the highlights and analysis from the Cardinals game as well as around the NFL. The program will include appearances from Cardinals players and coaches following the game (NBC 12 News, Sunday evenings following SNF*)
