

STAR WARS DAY ACTIVITY

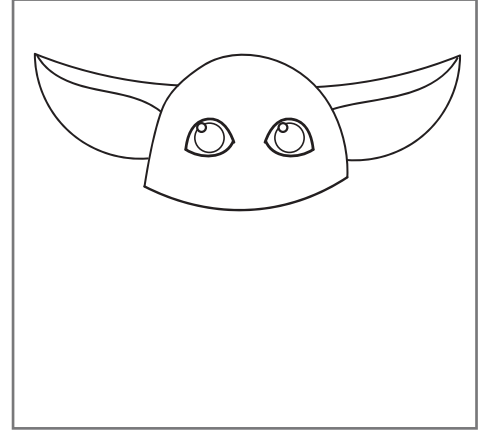

May 4th is Star Wars Day! In honor of this day, here is a step by step guide on how to draw Grogu (aka baby Yoda).

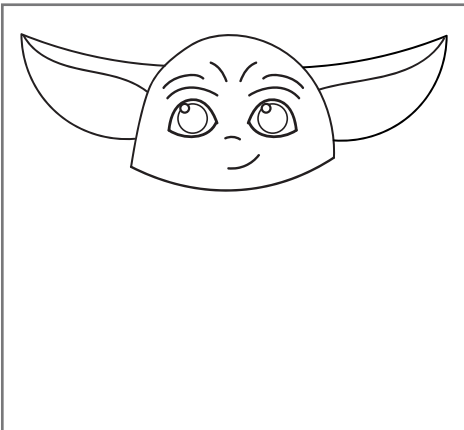

1) Start by drawing the face and ears.

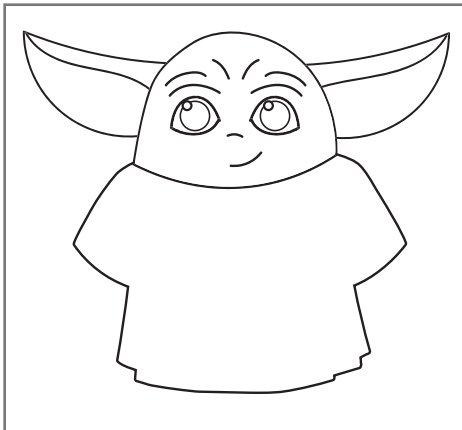

2) Next draw the eyes. Center them in the middle of the face. Add a line to each ear to make earlobes.

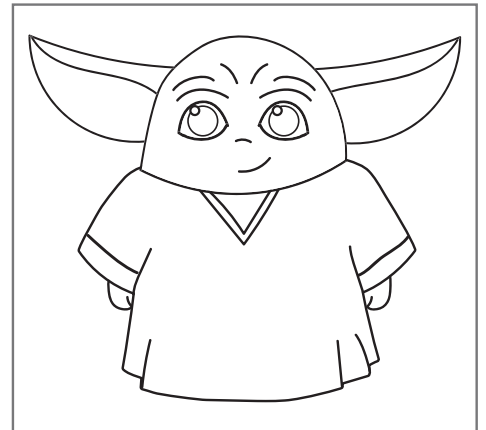

3) Add circles to the middle of the eyes. Then draw smaller circles in the top left of the eyes.

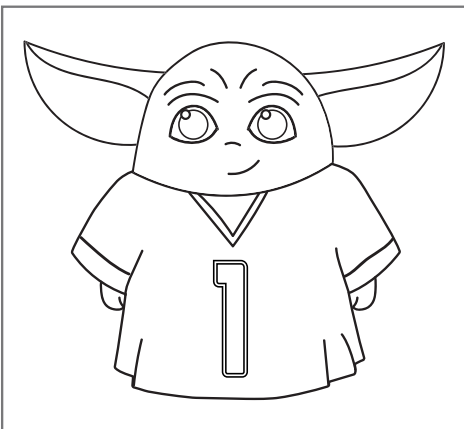

4) Draw a few lines above his eyes to show his expression and a small curved line for his nose. Then add a smile.

5) Now that his face is done it's time to draw his clothing. Start by drawing the outline of a baggy shirt.

6) Draw a neckline, shirt wrinkles and stripes on the sleeves.

7) Customize the shirt with additional designs.

8) Finish the drawing by adding color!
