

COMMANDERS **FIELD OF PLAY**

As Washington Commanders our goal is to evolve Commanders Strategic Planning to define aligned areas of focus or our **Field of Play.**

Our Culture

Being with the Washington Commanders is a lifestyle, not just a place to work. We are all Washington Commanders, whether on the field or off, in the park or in the stadium.

You are a person here, not a number, and all bring something special and unique to our Field of Play. To ensure we maintain that culture, we will focus on our **Purpose, Mission, and Values.** We will apply these concepts to everything we do, whether we are at practice, in meetings, in games, dealing with outside organizations and when dealing with each other. These terms will be our cornerstones, and we shall judge our actions (individual, collective and organizational) by them.

WHAT DRIVES US

INSPIRING and UNIFYING people through a

SHARED passion and pride for THEIR team.
