

In an effort to provide a smoother, more convenient parking experience for guests, the Sports Complex Parking Venture is introducing new guidelines for oversized vehicles in the South Philadelphia Sports Complex for Eagles home games. These changes are being implemented based on feedback from and collaboration with the City of Philadelphia and community stakeholders.

Beginning **Sunday, October 4, 2026**, oversized vehicles will be directed to park in designated locations by lot attendants. This new policy is designed to help ease traffic flow, keep lanes clear, and preserve parking availability for all guests.

Guests with oversized vehicle prepaid parking passes will receive their standard four parking spaces with the option to purchase two additional spaces for \$100 total, bringing the maximum number of spots to six. Guests without an oversized vehicle prepaid parking pass will be required to pay the \$200 oversized vehicle parking rate upon arrival for the standard four spots, with the option to purchase two more spots for an additional \$100.

Additional Details:

- Designated oversized vehicle parking will be located in Lot D (Xfinity Mobile Arena lot) and the upper section of Lot N facing 7th & Pattison.
- Parking locations will be assigned by attendants and cannot be selected or saved by guests.
- Guests must remain within their assigned or purchased parking area.
- Companion, standard-sized cars and trucks will not be permitted to park in the lots reserved for oversized vehicles. However, they will be permitted to drop off tailgating supplies in those lots during a one-hour window.
- All vehicles, equipment, and activities must remain within the assigned or purchased space.
- Oversized vehicle pass holders assigned to Lots E or H may park in those lots and will also be assigned a parking space within that area. Those vehicles will be offered the same opportunity to purchase two additional spots.

The Sports Complex Parking Venture thanks everyone for their cooperation and support with this new process aimed at promoting a safe, efficient, and streamlined arrival experience for guests.
