

2021-2022 COMMUNITY REPORT
BUILDING STRONGER COMMUNITIES

MESSAGE FROM THE OWNER

If you want to build and sustain long-term success, you must start with a strong foundation.

When I bought the Patriots in 1994, my family's first order of business was to create a team foundation with an emphasis on giving back and positively impacting the lives of people in our own community. Every year we strive to expand our scale, scope and reach across New England. With the incredible support of our fans, the Patriots Foundation has grown to help meet the needs of our region's most vulnerable populations. We have provided assistance to thousands of local nonprofit organizations with initiatives that provide family healthcare, fight homelessness and hunger, aid our military and veterans, teach the importance of nutrition and exercise and encourage education and mentoring.

For the past 28 years, the Patriots Foundation has been committed to helping communities throughout New England with a variety of initiatives to support the various needs that exist. This annual report provides an 18-month review of the many different ways our players, alumni, cheerleaders and staff have joined my family to champion our New England communities through the Patriots Foundation.

This year, we will continue to use our platform to shine a light on more volunteers who dedicate incredible amounts of time and resources to support the efforts of local nonprofits. These "community heroes" epitomize the commitment to volunteerism that the Patriots Foundation has encouraged since its inception.

On behalf of my family and the entire Patriots organization, I want to thank everyone who has contributed to the success of our team, both on and off the field. We are all Patriots!

With sincere gratitude,

COVID-19 VACCINATIONS

1ST Gillette Stadium became the first sports and entertainment venue in the northeast to open for mass vaccinations.

In January 2021, Massachusetts Governor Charlie Baker announced that Gillette Stadium would be the Commonwealth's first large-scale COVID-19 vaccination site, operated by CIC Health. The state selected CIC Health — a Cambridge-based health tech company — to help manage vaccine administration, initially for first responders and healthcare workers and, later, for other priority populations per the state's phased timeline. Eventually, up to 5,000 people per day were able to receive vaccinations. Gillette Stadium served as a mass vaccination site for five months, administering 610,283 doses of the COVID-19 vaccine.

CORNERSTONE PARTNERS

The Kraft family and the New England Patriots Foundation are excited to partner with Bank of America to launch a new program called, "Community Captains." This charitable initiative was created in the fall of 2021 to build deeper relationships with nonprofits and strengthen the impact on the populations they serve. During this two year partnership, the Patriots Foundation and Bank of America will work closely with six nonprofit organizations, with a goal of establishing a deeper understanding of their community efforts and to help each charity serve their constituents more effectively.

In March of 2021, the Patriots and Revolution announced a new Women in Sports initiative. Led by the Patriots Foundation and the Revolution Charitable Foundation, this initiative will empower girls and women by celebrating the impact that women have in the sports industry. Kraft Sports + Entertainment has a long history of supporting initiatives designed to empower and support girls and women and we look forward to building upon these efforts with our partners at CVS. We appreciate their shared commitment to celebrating and empowering women.

The Kraft family and the New England Patriots have a longstanding commitment to supporting active duty military, veterans and their families. As part of the year-round Salute to Service initiative, the Kraft family and Patriots Foundation are committed to celebrating those who dedicate their lives to protecting our freedoms. Our partners at Cross Insurance share the same commitment to military, veterans and their families. We look forward to working with them throughout the year to celebrate and honor the true Patriots for their selfless dedication to our country.

In 2011, the foundation established the Celebrate Volunteerism initiative as a way to share examples of dedicated volunteers, build awareness of the need for volunteering, identify and educate others about volunteer opportunities and inspire New Englanders to follow the Kraft family's example of becoming lifelong volunteers. We are excited to partner with our good friends at Gillette to inspire the next generation of volunteers and to celebrate individuals for their dedication and service to our New England communities.

The Kraft family and the Patriots Foundation are dedicated to supporting initiatives that provide clothing, food, gifts and other essential items to children and families in need. Since the foundation's inception, the Kraft family has remained steadfast in their commitment to provide essential items to families in need, partnering with hundreds of local charitable organizations that provide healthy meals and unwavering support to the most vulnerable populations in our region. We are excited to team with Dellbrook to provide essential services to those experiencing homelessness.
