Breeze Jacket Size Guideline

Our Breeze Jacket is made from a lightweight stretch woven fabric. This size chart shows our suggested size based on chest measurement. To take the body's chest measurement, use a tape measure snug but not tight around the largest part of the chest. We recommend choosing a size that has a chest measurement about 5-9 inches larger than the body's chest measurement to allow for ease of movement, and layering. This is a unisex-fit jacket that is meant to be worn loose and relaxed. For this reason if you are unsure between two sizes, we recommend choosing the larger of the two.
