

# COMMUNITY ENGAGEMENT

## OUR TEAM. OUR COMMUNITY.

The Ravens Foundation, Inc. serves as a separate non-profit entity of the team's community outreach efforts. In addition to Ravens appearances and in-kind donations, the foundation provides support to Baltimore-area non-profit organizations. Ravens players are also active in the community through individual foundations of their own.

The All Community Team (ACT) is the corporate arm of the Ravens Foundation that is focused on encouraging corporate partners to be active members in the community. Partners of the team have the opportunity to be a participating sponsor of ACT and **participate in the NFL Challenge**.

After selecting a Maryland-based 501c3 charitable organization, partners participate in a weekly NFL challenge and monthly volunteer opportunities in order to earn points for their team. At the conclusion of the season, three (3) teams with the highest point total will earn a donation to their selected charity.

Along with the opportunity to get involved with the All Community Team, partners also have the ability to explore collaborative community engagement initiatives with the Ravens community relations team.
