

## Beverly Petenbrink, S.A.F.E. Management

### Truly Above and Beyond

On Sunday, the 15th of September, I began to feel ill as we were coming down from our PSL seats in Section 552 at the end of the game. I was able to make it down 1 set of escalators, but my body was shutting down and we ended up going onto the club level. On the club level, there was a chair and I was able to sit for a moment.

My husband and I left the club level and ended up making it to the lower level and I was able to get to a restroom. I had gone into a stall and at that point was dry heaving and could not stand upright. I was trying to get out, but I could not unlock the door. My husband and another staff member tried to jiggle the door open, but it would not open. Beverly did not think twice and immediately climbed under the stall and unlocked the door so that the EMTs could access me upon arrival. Once EMT arrived she stayed by my side and continued to assist while I was still not feeling well on the gurney. After being checked by EMT's they determined I was suffering from a heart attack and was transported to the hospital.

We have no idea where the staff member came from or how she got medical assistance there, but we really appreciated all she did for us. Thank you! - *Sent into Ravens by PSL owner Patricia Radcliffe*
