# TYPES OF BULLYING

Bullying is when you pick on someone else over and over on purpose because you think you're cooler, smarter, stronger or better than them.

## VERBAL BULLYING

This is when someone uses their words to hurt another person.

Actions include teasing, name-calling, or threatening.

## HANDS-ON BULLYING

This is when someone uses their hands to hurt someone else.

Actions include hitting, kicking, pinching, tripping, and pushing.

## STAY-OUT BULLYING

This is when someone hurts someone else by leaving them out of the group on purpose.

Actions include telling someone to leave - and not inviting them to play with the group.

## CYBER BULLYING

This is when someone uses any form of technology to make fun of someone else or spread rumors about them.

This type of bullying is becoming more common and is very dangerous.
