

2019 ANNUAL REPORT

What started with a blue recycling bin under each employee's desk in 2003 has grown into a company-wide sustainability program that works year-round to reduce the team's environmental footprint.

With the help of partners and fans, the Philadelphia Eagles have been able to develop a multi-year curriculum and action plan that incorporates green energy production, recycling, composting, energy efficiency and reforestation, among other ventures.

The Eagles, who wear the color "green" with pride, are committed to serving as proud environmental stewards for a community that gives so much to them throughout the year.

LEED GOLD STATUS

Lincoln Financial Field achieved LEED Gold status by the U.S. Green Building Council for implementing practical and measurable strategies and solutions aimed at achieving high performance in: sustainable site development, water savings, energy efficiency, materials selection and indoor environmental quality.

ISO 20121 CERTIFIED

The Philadelphia Eagles became the first professional sports team to receive ISO 20121 certification, an international standard designed to help organizations integrate sustainability into management practices and processes.

GO GREEN PARTNERS

COMPOSTABLE STRAWS

With Aramark's help, the Eagles phased out traditional plastic straws and now utilize a plastic alternative made from 100% renewable resources. The Eagles became the first team in the famed South Philadelphia sports complex to make the switch, eliminating the use of roughly 500,000 plastic straws annually. According to research, the number of plastic straws used by Americans in a single day can circle the Earth two and a half times.

6

TONS

BIO-DIGESTERS

NOVACARE COMPLEX

6+ tons (11,500+ lbs) of pre-consumer food waste decomposed in 2019.

24

TONS

LINCOLN FINANCIAL FIELD

24+ tons (48,000+ lbs) of pre-consumer food waste decomposed in 2019.

WATER CONSERVATION

The installation of water filtration fountains at the team's facilities has saved more than 450,000 water bottles since 2015.

Water Fountains at LFF

Water Fountains at NCC

545

GO ZERO

With the help of The Conservation Fund, the Eagles annually offset 100% of the carbon emissions they generate in team travel. The Eagles participate in reforestation events throughout the year to counterbalance the amount of CO2e that is produced. In 2019, approximately 545 metric tons of CO2e were offset by the planting of 496 bottomland hardwood seedlings.

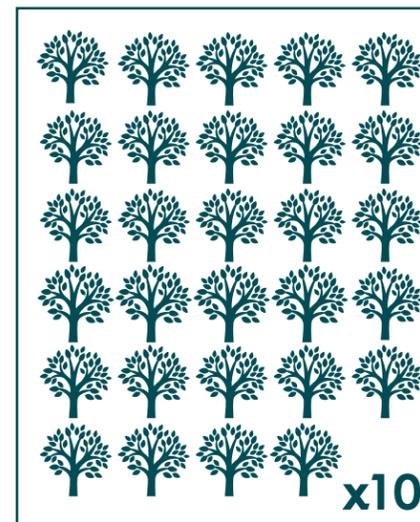

BIKE SHARE PROGRAM

Provides bikes and encourages employees to use an alternative means of transportation when traveling back and forth from the NovaCare Complex to Lincoln Financial Field.

29 = 290 TREES

In collaboration with Philadelphia Gas Works (PGW), the Eagles will plant 290 trees in the Eagles Forest this year. Through the Field Goal Forest Program, PGW pledges to plant 10 trees for every field goal made by the team each season.

CLOSED-LOOP RECYCLING PROGRAM

As partners in recycling, the Eagles and Braskem created a closed-loop recycling program that collects bottle caps at Lincoln Financial Field and turns them into new material for use at the stadium. One immediate result of these recycled bottle caps was the creation of an eight-foot tall replica of the Vince Lombardi Trophy, commemorating the team's Super Bowl LII victory. The statue is housed on HeadHouse Plaza where fans can learn about plastics recycling and other sustainability initiatives.

WASTE & RECYCLING

| | | |
|--------------------------|------|------|
| EFW ENERGY-FROM-WASTE | 646 | tons |
| CARDBOARD | 103 | tons |
| STADIUM COMMINGLED | 91 | tons |
| FOOD COMPOST | 107 | tons |
| ALUMINUM | 18 | tons |
| WASTE OIL | 60.8 | tons |

CLEANING SUPPLIES

| | | |
|---|---------|-----------------|
| ORBIO (ECO-FRIENDLY CLEANING SOLUTION) | 100,752 | gallons TO DATE |
|---|---------|-----------------|

SEPTA key cards have been purchased for employees when traveling to business events downtown.
