

# MAKE YOUR OWN NO SEW BLANKET

A Movie Night isn't complete without two bear-y important things – tasty snacks and a comfy blanket! We've got you covered with easy snack recipes and now it's time to get crafty as a family with these simple steps to make your own blanket – no sewing required!

## SUPPLIES

Two pieces of fleece fabric cut to whatever size you want your blanket to be

Scissors

Ruler

*Option 1: Make it easy and pick up a no sew blanket kit at your local craft store with fleece already cut for you.*

*Option 2: Channel your inner designer and choose your own combination of fleece colors or prints and have them cut at your local craft store.*

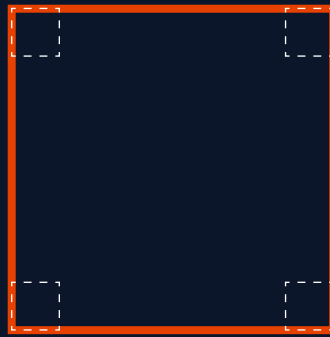

*We recommend at least 1 yard of each fabric for a kid-sized blanket or up to 2 yards of each fabric for a family-sized blanket.*

# INSTRUCTIONS

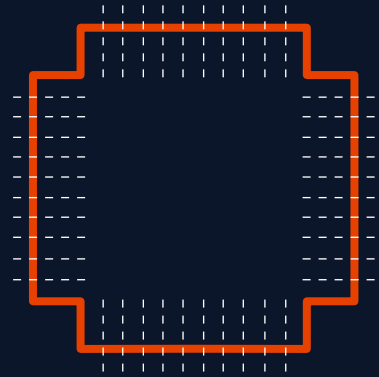

Follow this step-by-step tutorial to make your own blanket!

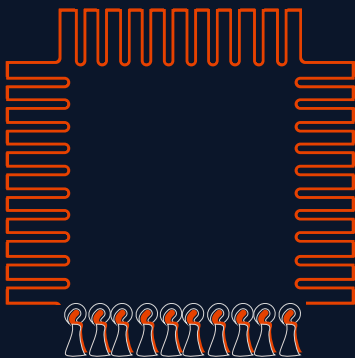

1. Place fleece layers flat with back sides together.

2. Cut out 4-inch squares through both layers of fleece at each corner.

3. To make fringe, cut 1-inch wide strips around all four sides of the fleece layers. Cut each strip 4 inches in length.

4. Tie each bottom strip to the corresponding top strip to form a knot. (That means tie it twice!)

5. To complete your blanket, repeat tying around all four edges.

6. Cuddle up in front of the TV with your new favorite blanket!
