

2022 SIGNATURE PROJECT

In June, the Baltimore Ravens hosted their annual organization-wide volunteer day to renovate multiple educational spaces at Baltimore City's Franklin Square Elementary/Middle School. Fully funded by the Ravens Foundation, Inc., the \$200,000 investment will help prepare the school as it welcomes students from the Stewart Hill Academy community this fall.

Over 50 players and 150 staff members, including new team president Sashi Brown, volunteered their time to create safe, innovative and vibrant learning environments, helping students thrive in the near and long-term future.
