

# RAIDERETTE OF THE GAME

PRESENTED BY **E6SFITNESS**

## Kylee

Kylee has been with the Raiderettes for two seasons, bringing with her a diverse dance background. At age two, she began training in various styles including ballet, jazz, hip hop, contemporary, and tap. She competed until she turned 18 and served as president of her high school dance company. In college, she danced for Utah State University and the University of Utah, and even spent a season as a BlazerDancer for the Portland Trailblazers. Now in her second season with the Raiderettes, Kylee is a proud member of Football's Fabulous Females.

Beyond her dance accomplishments, Kylee graduated from the University of Utah with a bachelor's degree in Kinesiology, along with minors in Business and Nutrition. She also obtained her cosmetology license and enjoys doing hair for her teammates. Kylee was motivated to audition for the Raiderettes by the incredible sisterhood and legacy of the team. Stepping onto the field with the women who came before her was a humbling experience that she cherishes.

As a Raiderette, Kylee finds joy in inspiring the younger generation and making a positive impact in the community. She serves as a community ambassador, connecting with people through appearances, like visiting the oncology unit at Primary Children's Hospital to deliver Christmas gifts to children battling illness. Witnessing their joy was a powerful reminder of the impact dance can have on others' lives.

Looking ahead, Kylee has ambitious career goals. As a cosmetologist, she aims to build a strong client base and dreams of opening her own salon. She also aspires to coach a high-level dance team, combining her passion for beauty and hairstyling with the art of dance.

Kylee's journey as a Raiderette exemplifies talent, dedication, and a passion for dance. She embodies the spirit of the Raiders and continues to make a positive impact both on and off the field. As Raiderette of the Game, Kylee is a shining example of what it means to be a good teammate and leader.
