

BEADED

SNOWFLAKE

craft activity

What you will need:

- Scissors
- Pipe Cleaners (At Least 2)
- Winter color Pony Beads (At least 30)
- Ribbon

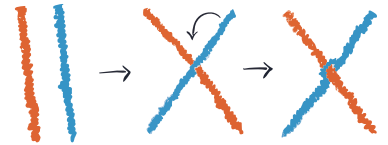

Advocate Health Care

Instructions

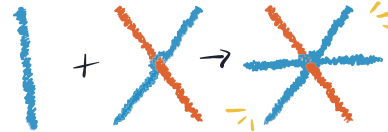

Step 1: Cut each pipe cleaner in half (3 halves make 1 snowflake)

Step 2: Take two of the cut pipe cleaners and form an X. Twist to connect.

Step 3: Take the third half and twist it around the middle of the X. This is the snowflake base.

Step 4: Once each stem is equally separated, put 5-7 Pony beads on each snowflake stem with your child.

Step 5: Twist the stem ends back into the last bead so it creates a knot. This makes sure the beads won't come off.

Step 6: Leave one stem in a bigger loop and tie a ribbon so it can be used as an ornament!
